EXPERIMENT 4

NAME:KANISHKA S ROLL NO:240701227

Create a prototype with familiar and unfamiliar navigation elements. Evaluate ease of use with different user groups using proto.io

SCREEN 1:

Familiar Icons:

☰ Menu Icon

This is a familiar icon used to open the navigation menu in most mobile apps.
Users instantly recognize it as the button to view more options.

✉ Email Icon

This icon represents the email input field for login or communication.
It is commonly used in apps, so users easily understand its purpose.

🔒 Password Icon

This icon indicates a secure password field.
It is widely recognized as a symbol of privacy and security.

Unfamiliar Icons:

🍔 **Burger Image**

This is not a functional icon but a decorative food image.
It does not represent any specific action like order or menu, so it may confuse users.

🍕 **Pizza Image**

This image is used for visual attraction rather than navigation.
Users cannot click it to perform an action, so it is considered unfamiliar as a UI icon.

🍹 **Juice Image**

This is a decorative element placed for design purpose.
It does not indicate any function, making it an unfamiliar interactive icon.

SCREEN 2:

Familiar Icons:

🔍 **Search Icon**

This icon is commonly used in apps to search for items.
Users immediately understand that they can search food items here.

🛒 **Cart Icon**

This icon represents the shopping cart.
It is widely recognized as the place to view selected or ordered items.

☆ **Star Rating**

Star icons are commonly used to show ratings and reviews.
Users easily understand that more stars mean better rating.

Unfamiliar Icons:

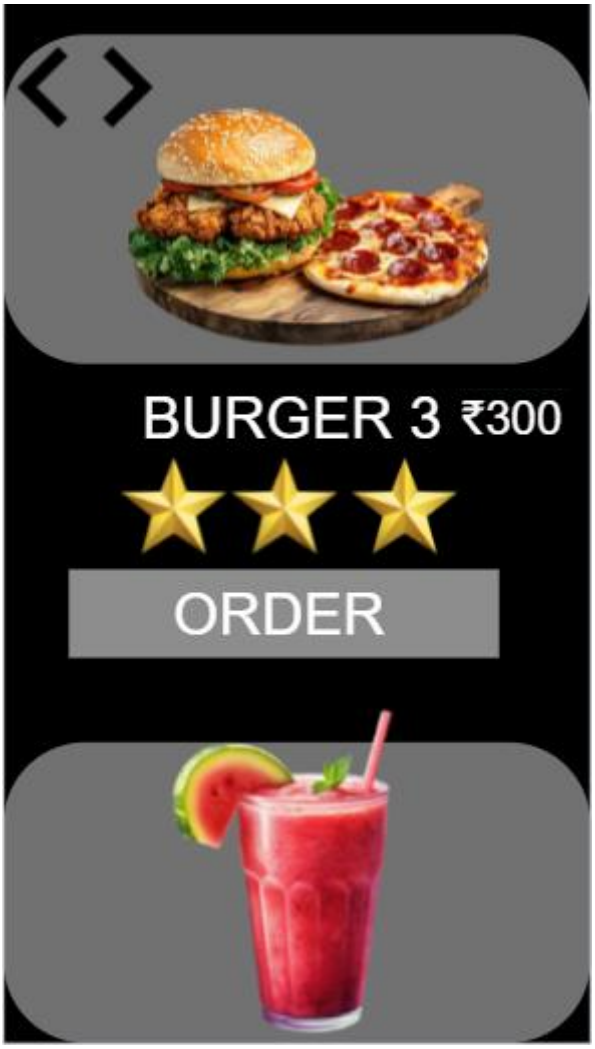
🍕 **Pizza Image**

This is a food image used for display purposes.
It does not represent a clickable function, so it is not a standard UI icon.

🍰 **Small Cake Icon (Top Left)**

This icon may represent food category but is not clearly labeled.
Some users may not understand its exact function without text.

SCREEN 3:



Familiar Icons:

☆ **Star Rating**

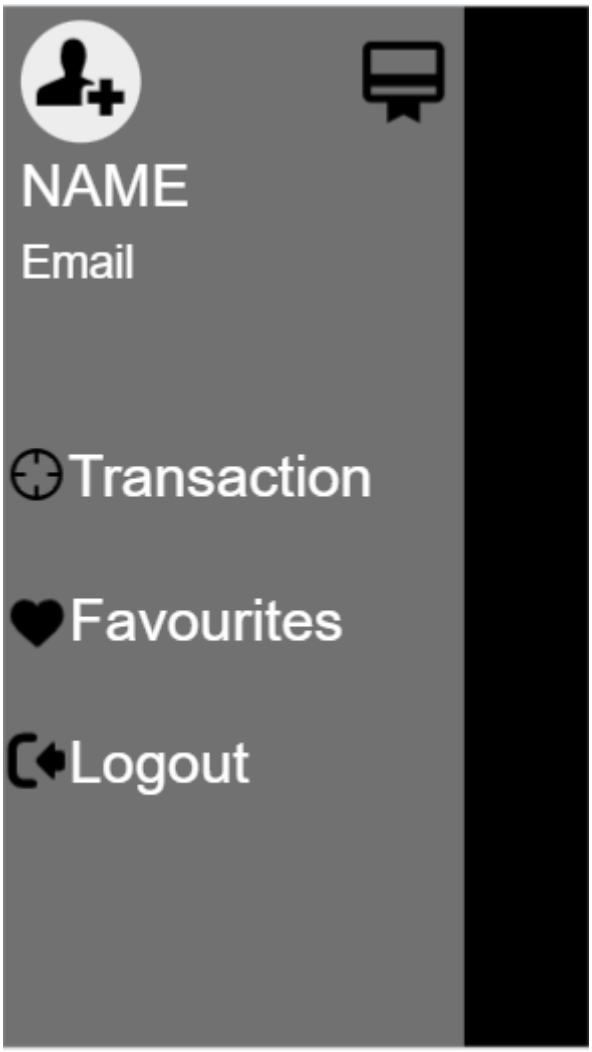
Star icons are commonly used in apps to represent ratings.
Users immediately understand that more stars mean better reviews.

Unfamiliar Icons:

Arrow Icons

Arrow icons are commonly used for navigation or sliding between items.
Users easily recognize them as back or next controls.

SCREEN 4:



Familiar Icons:

Favourites Icon

The heart icon is commonly used to represent liked or favorite items.
Users easily understand that it stores their preferred items.

Logout Icon

The arrow with door symbol is widely used for logout.
Users quickly recognize it as the option to exit the account.

Profile Add Icon

The person with plus symbol represents adding or editing a profile.
It is a commonly used symbol for user account actions.

Unfamiliar Icons:

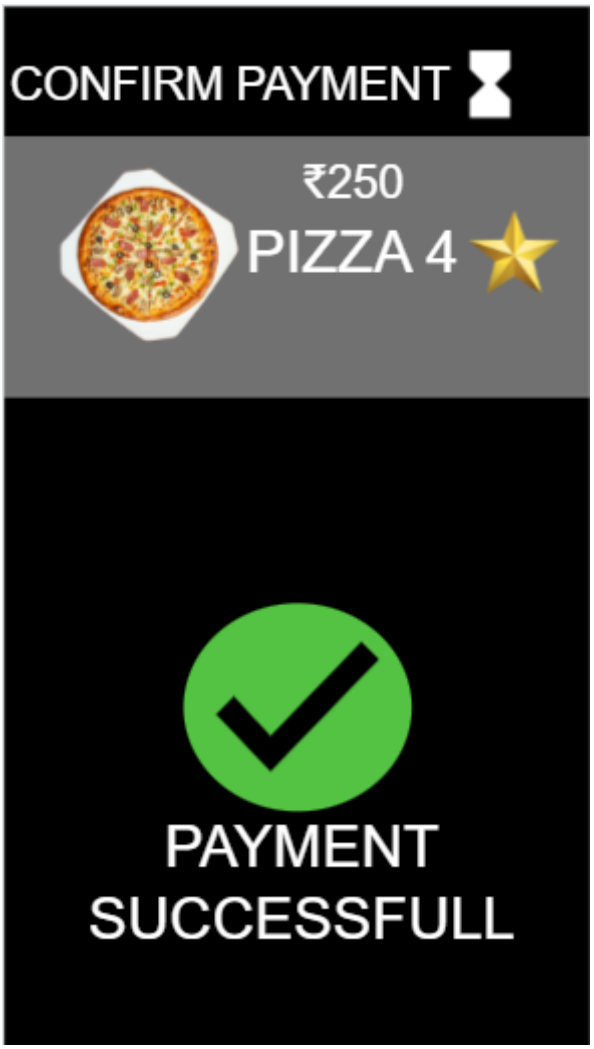
Monitor Icon (Top Right)

The screen/monitor icon does not clearly represent a specific function.
Users may not understand what action it performs without a label.

⏱ Transaction Icon

The clock-style icon used for transaction is not very common.
Users may get confused about whether it means history, time, or activity.

SCREEN 5:



Familiar Icons:

✔ Check Mark Icon

The check mark inside the green circle is commonly used to indicate success or confirmation.
Users immediately understand that the payment was completed successfully.

☆ Star Icon

The star icon is widely used to represent ratings or favorites.
Users easily recognize it as a rating symbol

Unfamiliar Icons:

⏳ **Hourglass Icon (Top Right)**

The hourglass symbol is not commonly used in payment confirmation screens.
Users may not clearly understand whether it means waiting, processing, or time limit.
